

**Erratum**

In the original article by Kanwal, et al., entitled „Large-scale *in vitro* Transcription, RNA Purification and Chemical Probing Analysis“ [Cell Physiol Biochem 2018;48:1915-1927, DOI: 10.1159/000492512], there has been a mistake the authors' names. The correct author list is reproduced here:

Fariha Kanwal<sup>a</sup> Ting Chen<sup>a</sup> Yunlong Zhang<sup>a</sup> Altaf Simair<sup>a</sup> Cai Rujie<sup>a</sup> Najam us Sahar Sadaf Zaidi<sup>c</sup> Xinhang Guo<sup>a</sup> Xiaolong Wei<sup>a</sup> Geoffrey Siegel<sup>b</sup> Changrui Lu<sup>a</sup>

<sup>a</sup>College of Chemistry, Chemical Engineering and Biotechnology, DongHua University, Shanghai, China, <sup>b</sup>Department of Orthopaedic Surgery, Musculoskeletal Oncology Division, University of Michigan Medical School, Ann Arbor, MI, USA, <sup>c</sup>Department of Industrial Biotechnology, Atta-ur-Rahman School of Applied Biosciences (ASAB), National University of Sciences and Technology (NUST), Islamabad, Pakistan

There has also been a mistake in Figure 1:

The third panel on the right “RNA secondary structure analysis optimization” was erroneously appended with a wrong figure from another author's work. We sincerely apologize to affected authors of that paper and state that it was just an error in editing. Neither the panel nor the action of using the panel without the original authors' approval was acceptable. We also appreciate Dr. Batey for pointing out this mistake before it repercussions.

The corrected Figure 1 appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way.

**Fig. 1.** Optimization schema for large-scale *in vitro* transcription, RNA purification and chemical probing analysis.
