

Retraction Statement

For the following article

Chistiakov DA, Orekhov AN, Bobryshev YV, entitled
"LOX-1-Mediated Effects on Vascular Cells in Atherosclerosis"
[Cell Physiol Biochem 2016;38(5):1851-1859, DOI:10.1159/000443123]

retraction has been requested by the University of New South Wales, Australia on the basis that following a research misconduct inquiry, the above mentioned article contains plagiarised work. The authors of this paper accept the retraction and express their regrets.

Cell Physiol Biochem follows this recommendation and hereby formally retracts the above mentioned article.

Update: A correction has been published stating that this article should not be considered retracted anymore (see 10.33594/000000297).
