

## Retraction Statement

---

The article

“MiR-424 Promotes Non-Small Cell Lung Cancer Progression and Metastasis through Regulating the Tumor Suppressor Gene TNFAIP1”

[Cell Physiol Biochem 2017;42:211–221. DOI: 10.1159/000477314]

by Ming Zhang, Chang'e Gao, Yi Yang, Gaofeng Li, Jian Dong, Yiqin Ai, Qianli Ma and Wenhui Lia

has been retracted by the current and former Publishers and the Editor.

After the publication of this article, concerns were raised about the integrity of some of the data presented in figures 1, 4, and 6. The authors were unresponsive to our requests to provide the original data and respond to the concerns within the given timeframe. The matter was raised to the corresponding author's institution who did not respond to our request for an investigation. Given the serious nature of the concerns raised, the article has been retracted by the current and former publishers. The authors have not responded to our correspondence regarding this retraction despite multiple attempts of contact.
