

Retraction Statement

The article

“Schizandrin A Alleviates LPS-Induced Injury in Human Keratinocyte Cell Hacat Through a MicroRNA-127-Dependent Regulation” [Cell Physiol Biochem 2018;49:2229-2239; DOI: 10.1159/000493826] by Shujie Li, Ruijin Xie, Chengrui Jiang and Mei Liu

has been retracted by the current and former Publishers and the Editor.

In 2020, concerns were raised about the integrity of the data presented in the article. Following an investigation by the journal into the concerns, an Expression of Concern was published: <https://doi.org/10.33594/000000428>.

Recently, the results of an investigation by the authors' institution were published, details can be found here: <https://www.jnrmyy.com/keyan/kxyj/gonggao/2021/1217/6573.html>

The published results of the investigation indicates that evidence of misconduct was identified within the article. The authors' institution did not respond to our request to provide more detail about the results of the investigation and the authors did not respond to our request to comment on the results of the investigation within the specified timeframe. Therefore, based on the institution's findings, the article is being retracted.

The authors did not respond to our correspondence about the retraction of this article.
