

Erratum

In the article “SKLB060 Reversibly Binds to Colchicine Site of Tubulin and Possesses Efficacy in Multidrug-Resistant Cell Lines” [Cell Physiol Biochem 2018;47:489-504; DOI: 10.1159/000489983] by Yan et al., due to errors during data processing, in Figure 2 the authors inadvertently used the images of 2.5mg/kg kidney and liver groups for the 10mg/kg group.

The corrected Figure 2 is shown here.

Fig. 2. Histopathological changes of A2780 xenograft models treated with SKLB060, PTX, and PMC6827.
