Erratum

In the article "MiR-195/-16 Family Enhances Radiotherapy via T Cell Activation in the Tumor Microenvironment by Blocking the PD-L1 Immune Checkpoint" [Cell Physiol Biochem. 2018;48(2):801-814; https://doi.org/10.1159/000491909] by Tao et al., the following error was identified. In Figure 4B, an incorrect representative flow-cytometry plot was included for the RT group during figure preparation. The error resulted from the inadvertent selection of a plot generated from the miR-195/16 / RT / anti-PD-L1 during the preliminary analysis, in which different gating conditions were tested. During the formal analysis, all experimental groups were re-analyzed using the standardized gating criteria. The RT group was therefore rechecked and the correct representative flow-cytometry plot was selected for the revised figure. The corrected

Figure 4 is shown here.
