

- 910 As-Cd-Pb Mixture Induces Cellular Transformation via Post-Transcriptional Regulation of Rad51c by miR-222**  
Rojas E. (Ciudad de México), Martínez-Pacheco M. (Ciudad de México), Rodríguez-Sastre M. (Ciudad de México), Valverde M. (Ciudad de México)
- 921 Hydroxytyrosol Decreases Phosphatidylserine Exposure and Inhibits Suicidal Death Induced by Lysophosphatidic Acid in Human Erythrocytes**  
Tortora F. (Naples), Notariale R. (Naples), Lang F. (Tübingen), Manna C. (Naples)
- 933 7-Keto-Cholesterol and Cholestan-3beta, 5alpha, 6beta-Triol Induce Eryptosis through Distinct Pathways Leading to NADPH Oxidase and Nitric Oxide Synthase Activation**  
Attanzio A. (Palermo), Fazzitta A. (Palermo), Cilla A. (Valencia), Livrea M. (Palermo), Tesoriere L. (Palermo), Allegra M. (Palermo)
- 948 HOTAIR Knockdown Decreased the Activity Wnt/b-Catenin Signaling Pathway and Increased the mRNA Levels of Its Negative Regulators in HeLa Cells**  
Salmerón-Bárcena E. (Chilpancingo de los Bravo), Illades-Aguilar B. (Chilpancingo de los Bravo), Moral-Hernández O. (Chilpancingo de los Bravo), Ortega-Soto A. (Ciudad de México), Hernández-Sotelo D. (Chilpancingo de los Bravo)
- 961 Ticagrelor Improves Remodeling, Reduces Apoptosis, Inflammation and Fibrosis and Increases the Number of Progenitor Stem Cells After Myocardial Infarction in a Rat Model of Ischemia Reperfusion**  
Birnbaum Y. (Houston), Tran D. (Galveston), Chen H. (Galveston), Nylander S. (Möln达尔), Sampao L. (Houston), Ye Y. (Galveston)
- 982 Inflammatory Serine Proteases Play a Critical Role in the Early Pathogenesis of Diabetic Cardiomyopathy**  
Kolpakov M. (Philadelphia), Sikder K. (Philadelphia), Sarkar A. (Philadelphia), Chaki S. (Philadelphia), Shukla S. (Philadelphia), Guo X. (Philadelphia), Qi Z. (Philadelphia), Barbery C. (Philadelphia), Sabri A. (Philadelphia), Rafiq K. (Philadelphia)
- 999 Schlaufen12 Reduces the Aggressiveness of Triple Negative Breast Cancer through Post-Transcriptional Regulation of ZEB1 That Drives Stem Cell Differentiation**  
Al-Marsoumi S. (Grand Forks), Vomhof-DeKrey E. (Grand Forks), Basson M. (Grand Forks)
- 1015 Clinical Development of Sphingosine as Anti-Bacterial Drug: Inhalation of Sphingosine in Mini Pigs has no Adverse Side Effects**  
Carstens H. (Essen), Schumacher F. (Potsdam; Essen), Keitsch S. (Essen), Kramer M. (Essen), Kühn C. (Essen), Sehl C. (Essen), Sodemann M. (Essen), Wilker B. (Essen), Herrmann D. (Potsdam), Swaidan A. (Essen), Kleuser B. (Potsdam), Verhaegh R. (Essen), Hilkens G. (Essen), Edwards M. (Cincinnati), Dubicanac M. (Essen), Carpintero A. (Essen), Wissmann A. (Essen), Becker K. (Essen), Kamler M. (Essen), Gülbins E. (Essen; Cincinnati)
- 1029 Control of Muscle Fibro-Adipogenic Progenitors by Myogenic Lineage is Altered in Aging and Duchenne Muscular Dystrophy**  
Moratal C. (Nice), Arrighi N. (Nice), Dechesne C. (Nice), Dani C. (Nice)
