

Cellular Physiology and Biochemistry

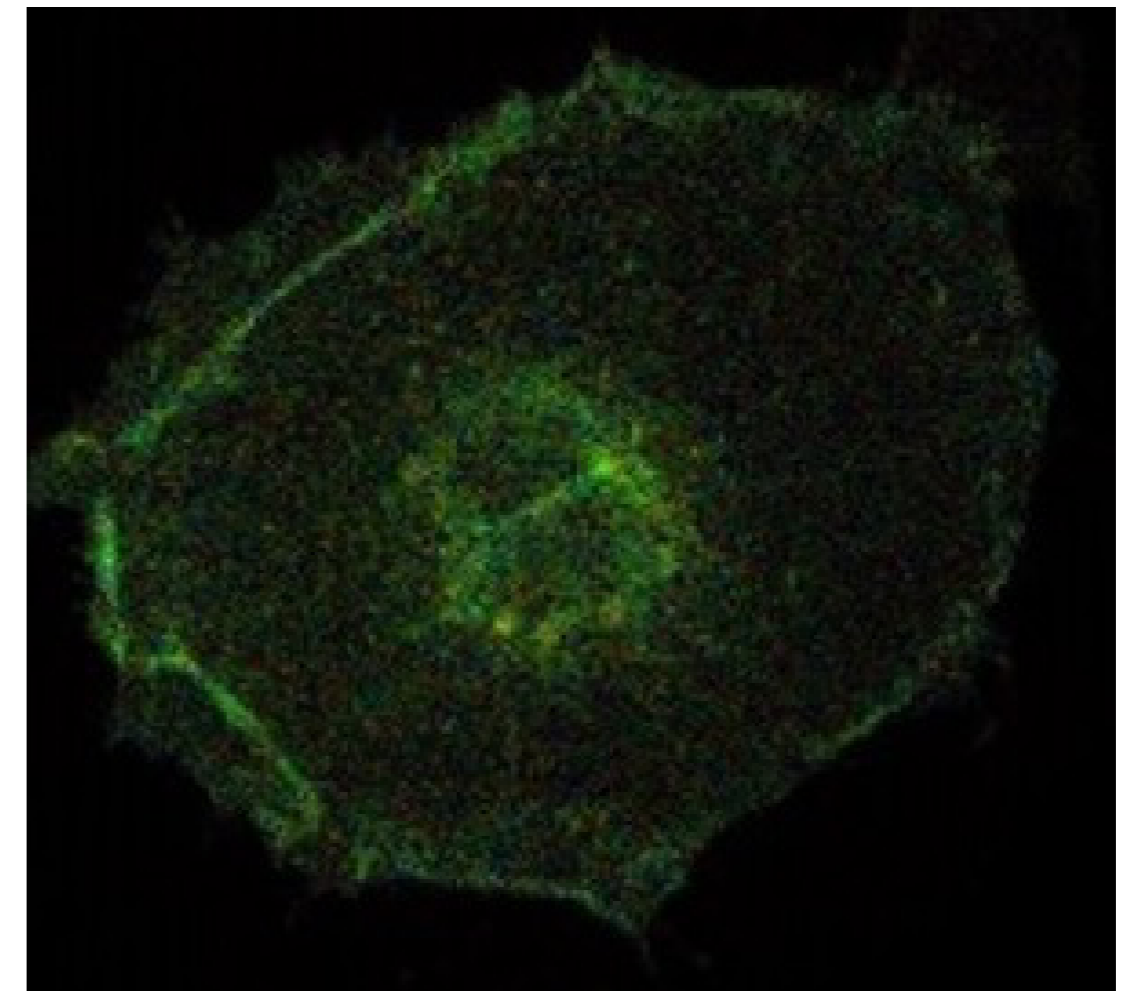

- 679 **Virus-Host Interactions of Enteroviruses and Parvovirus B19 in Myocarditis**
Ho H. (Münster), Peischard S. (Münster), Strutz-Seebohm N. (Münster), Seebohm G. (Münster)
- 704 **Atrazine Inhalation Worsens Pulmonary Fibrosis Regulating the Nuclear Factor- Erythroid 2-Related Factor (Nrf2) Pathways Inducing Brain Comorbidities**
D'Amico R. (Messina), Monaco F. (Messina), Fusco R. (Messina), Siracusa R. (Messina), Impellizzeri D. (Messina), Peritore A. (Messina), Crupi R. (Messina), Gugliandolo E. (Messina), Cuzzocrea S. (Messina; Saint Louis), Di Paola R. (Messina), Genovese T. (Messina), Cordaro M. (Messina)
- 726 **Arenavirus Therapy in Combination with Checkpoint Blockade as an Effective Way for Better Tumour Clearance**
Bhat H. (Essen; Cologne), Ali M. (Essen), Hamdan T. (Essen)
- 739 **Evaluation of Mesenchymal Stem Cells with Conditioned Media and m-EGF for Regeneration of Liver Tissue After Partial Hepatectomy in Wistar Rats**
Mohan D. (Bareilly), Maiti S. (Bareilly), Shivaramu S. (Bareilly), Palakkara S. (Bareilly), Elangovan K. (Bareilly), Kumar N. (Bareilly), Venkateshappa B. (Bareilly), Siddaraju S. (Bareilly), Murali D. (Bareilly), Chelladurai S. (Bareilly), Rajanna R. (Bareilly), Hescheler J. (Cologne)
- 761 **Enhanced Eryptosis in Glucose-6-Phosphate Dehydrogenase Deficiency**
Bouguerra D. (Tunis), Talbi K. (Tunis), Trabelsi N. (Tunis), Chaouachi D. (Tunis), Boudriga I. (Tunis), Abbès S. (Tunis), Menif S. (Tunis)
- 773 **Apolipoprotein E4 as a Novel Treatment Target for Alzheimer's Disease**
Jervies J. (Waurm Ponds), King S. (Waurm Ponds), Suphioglu C. (Waurm Ponds)
- 784 **Phosphodiesterase 8A Regulates CFTR Activity in Airway Epithelial Cells**
Turner M. (Montréal), Sato Y. (Montréal), Thomas D. (Montréal), Abbott-Banner K. (Brentford), Hanrahan J. (Montréal)
- 805 **Errata**
- 816 **Retraction Statement**

Vol. 55, No. 6 (pp.679-816), 2021

Cellular Physiology and Biochemistry

Cellular Physiology and Biochemistry

International Journal of
Experimental Cellular Physiology, Biochemistry and Pharmacology

Cover Illustration

Phosphodiesterase 8A Regulates CFTR Activity in Airway Epithelial Cells. See Original by Turner, et al. in Cell Physiol Biochem 2021;55:784-804.
