

Table of Contents Vol. 56 (2), 89-238 (2022)

- 89 Regulation of Epithelial-Mesenchymal Transition of A549 Cells by Prostaglandin D₂**
Vafaieinik F. (Gyungnam), Kum H. (Gyungnam), Jin S. (Gyungnam), Min D. (Incheon), Song S. (Busan), Ha H. (Busan), Kim C. (Gyungnam), Bae S. (Gyungnam)
- 105 Human Antigen R (HuR) Facilitates miR-19 Synthesis and Affects Cellular Kinetics in Papillary Thyroid Cancer**
Gatti da Silva G. (São Paulo), Pereira dos Santos M. (São Paulo), Nagasse H. (São Paulo), Pereira Coltri P. (São Paulo)
- 120 CARD9 Mediates Pancreatic Islet Beta-Cell Dysfunction Under the Duress of Hyperglycemic Stress**
Gamage S. (Detroit), Hali M. (Detroit), Chen F. (Detroit; Stony Brook), Kowluru A. (Detroit)
- 138 Spastic Paraplegia 20 and Serine/Threonine Protein Kinase 31 Expression for the Detection of Colorectal Cancer**
Hassan N. (Assiut), Idriss N. (Assiut), Gaber N. (Assiut), Ibrahim A. (Assiut), Tawfeek M. (Assiut), Mossad E. (Assiut), Mosa A. (Assiut), Ahmed E. (Assiut), Sayed S. (Assiut), Ahmed H. (Sohag), Mohamed A. (Assiut)
- 150 Galectin-3 Mitigates Cardiomyocytes Injury through Modulation of Left Ventricular Cathepsins B, D, L and S at 24-Hour Post Myocardial Infarction**
Al-Salam S. (Al-Ain), Hashmi S. (Karachi), Jagadeesh G. (Al-Ain)
- 166 Diverse Impact of N-Acetylcysteine or Alpha-Lipoic Acid Supplementation during High-Fat Diet Regime on Matrix Metalloproteinase-2 and Matrix Metalloproteinase-9 in Visceral and Subcutaneous Adipose Tissue**
Wołosowicz M. (Białystok), Łukaszuk B. (Białystok), Kasacka I. (Białystok), Chabowski A. (Białystok)
- 180 Divergent Signaling Pathways May Lead to Convergence in Cancer Therapy – A Review**
Qayum A. (Jammu; Ghaziabad), Shah S. (Srinagar), Singh S. (Jammu; Ghaziabad)
- 209 Improved Metabolic Pathways of Glycolysis, Glycogen Synthesis, the Urea Cycle, and Cytochrome Peroxidase Oxidative Reabsorption in a Miniature Bioreactor**
Giri S. (Leipzig; Munich), Schmidt-Heck W. (Jena), Bader A. (Leipzig)
- 223 Errata**
- 230 Retraction Statements**
