

## Table of Contents

Vol. 56 (6), 613-746 (2022)

---

- 613 The Ischemia and Reperfusion Injury Involves the Toll-Like Receptor-4 Participation Mainly in the Kidney Cortex**  
Herrera-Luna Y. (Santiago), Lozano M. (Santiago), Pasten C. (Santiago), Multhoff G. (München), Irarrázabal C. (Santiago)
- 629 Bivalves Transmissible Neoplasia: Biochemical Aspects of Contagious Cancer in a Clam *Macoma Balthica***  
Hallmann A. (Gdańsk), Michnowska A. (Gdynia), Chomiczewska A. (Gdańsk), Lipiński M. (Gdańsk), Smolarz K. (Gdynia)
- 644 Sirtuins: Subtle Regulators Involved in Convolted Mechanisms of Pregnancy**  
Kahmini F. (Shiraz), Ghaleh H. (Kermanshah), Shahgaldi S. (Tehran)
- 663 The Special One: Architecture, Physiology and Pharmacology of the TRESK Channel**  
Schreiber J. (Münster), Düfer M. (Münster), Seebohm G. (Münster)
- 685 Simvastatin Therapy Increased miR-150-5p Expression in the Patients with Type 2 Diabetes and COVID-19**  
AmeliMojarad M. (Tehran), AmeliMojarad M. (Tehran), Pourmadian A. (Tehran)
- 692 The Role of Exercise-Induced Reactive Oxygen Species (ROS) Hormesis in Aging: Friend or Foe**  
Lesmana R. (Bandung), Parameswari C. (Bandung), Mandagi G. (Bandung), Wahyudi J. (Bandung), Permana N. (Bandung), Tadiyahanti P. (Bandung), Gunadi J. (Bandung)
- 707 Possible Therapeutic Targets from Derivatives of Natural Marine Products Based on PI3K/AKT Dependent Inhibitors in Viral Infection COVID-19**  
Aleebrahim-Dehkordi E. (Tehran; Shahrekord), Koochaki P. (Cleveland), Samami E. (Gainesville), Ghoshouni H. (Yazd), Ghadimi D. (Tehran), Shadnough F. (Shahrekord), Saberianpour S. (Mashhad), Rafeian-Kopaei M. (Shahrekord)
- 730 The Role of Matrix Metalloproteinase-13 (MMP13) in TGF $\beta$ /BMP Pathway Regulation of Fibro-Adipogenic Progenitor (FAP) Differentiation**  
Liu M. (San Francisco; Elk Grove), Feeley B. (San Francisco), Kim H. (San Francisco), Liu X. (San Francisco)
- 744 Retraction Statement**
- 745 Retraction Statement**
- 746 Expression of Concern**

## Cover Illustration

The Role of Matrix Metalloproteinase-13 (MMP13) in TGF $\beta$ /BMP Pathway Regulation of Fibro-Adipogenic Progenitor (FAP) Differentiation. See Original by Liu, et al. in Cell Physiol Biochem 2022;56:730-743.
